New York Stock Market.

New York, November 29.—Government bonds dull but strong.

Stocks showed a most extraordinary activity, which was due entirely to the broadening of speculation. Low-priced stocks went back to their normal condition of dullness, while almost all of the old favorites became prominent in dealings. The Pacific stocks, among which Union Pacific and Pacific Mail were prominent, were largely traded in, the usual rumors of an adjustment of their difficulties being on duty. The opening was very active, but at irregular changes from last Saturday's final prices, different stocks ranging from 1/2 below to 3/4 above, while West Point was up 1 1/4. Prices were decidedly weak in the early trading. The upward movement gathered renewed strength in the last hour, and the market closed very active and strong, close to the best prices reached.

English Grain Trade.

London, November 29.—The Mark

Lane Express, in its review of the British grain trade during the past week, says: Sparse offers of native wheat are attracting the attention of the trade, and it is now believed that the crop has been largely over-estimated. It is now calculated at only 6,500,000, and the prominent market supplies are rather greater. Values have not risen. The sales of English wheat during the week were 40,933 quarters at 3s 11d, against 68,215 quarters at 3s 9d during the corresponding period last year. In London the trade for wheat is firmer and values are generally 6d higher, with its advance on American, Russian and choice Indian. The prices of flour and corn are maintained. There are large supplies of oats and the market is dull. Two cargoes of wheat arrived, two cargoes were sold and five were withdrawn. The market was clear of the supply of Saturday evening. At to-day's market there was a limited trade. Wheat was in good demand, flour 3d @ 6d higher. Corn was 3d dearer; oats were 3d lower.
